## TAMI DEVRIES

### Services

Kinesiology, Sekheam, Acupuncture, Counseling,  
Emotional Freedom Technique - EFT

### About Tami

I am over 70 years young and have been doing Colour puncture for around 16 years. I am totally passionate about it. I use Colour puncture with my clients with great results. I may not necessarily do the whole session only with Colour puncture; I usually combine modalities. I have used all three crystal activators on their own and together - they are amazing and the results are usually instantaneous.

When I travel overseas my torch and my crystals always come with me. That is my first aid kit instead of any drugs or medications.

I am so grateful to the Mandel Institute for bringing Colour puncture to Australia and I am happy that I can teach this wonderful modality.
